# Press Release

## Okino Ships New Version of 'PolyTrans<sup>®</sup> for Adobe<sup>®</sup> Director<sup>®</sup>' Xtra Plug-in System

**Newly Updated Plug-in System Allows Okino's PolyTrans to Re-purpose All Major 3D  
CAD, DCC and VisSim File Formats into Adobe Director 3D Digital Assets.**

Toronto, Ontario – July 24<sup>th</sup>, 2008 – Okino Computer Graphics announced today that it is now shipping its updated 'PolyTrans for Adobe Director' plug-in system, compatible with the new Adobe Director version 11 software. 'PolyTrans for Adobe Director' is a native Xtra plug-in for Director (versions 8.5 through 11) which allows all supported Okino 3D import converters to be accessed directly from within the Director user interface. Converted 3D assets can either be embedded into a Director cast member or linked to external Shockwave-3D<sup>®</sup> files.

Full information and documentation can be found online at <http://www.okino.com/conv/pt4director.htm>.

"PolyTrans for Adobe Director is a unique Xtra plug-in system which we have been shipping since 2001, just after Director 8.5 came to market," said Robert Lansdale, President and CEO of Okino Computer Graphics, Inc. "Director users will now be able to easily and transparently import assets from dozens of industry standard 3D file formats and multi-media authoring packages, using converters that Okino has

developed and supported over the last 20 years. Specifically for this Xtra plug-in system, we have added special processing functionality which allows for automated polygon reduction, model resizing, automatic light placement, hierarchy compression, hierarchy optimization and access to our suite of polygon processing tools, all within the Director user interface and as an integral part of the 3D file import process.”

### **Applicable WEB pages**

The following are pertinent pages on the Okino WEB site relating to this press release:

<a href="http://www.okino.com/conv/pt4director.htm">http://www.okino.com/conv/pt4director.htm</a>	= ‘PolyTrans for Adobe Director’ documentation
<a href="http://www.okino.com/conv/conv.htm">http://www.okino.com/conv/conv.htm</a>	= PolyTrans home page
<a href="http://www.okino.com/nrs/nrs.htm">http://www.okino.com/nrs/nrs.htm</a>	= NuGraf home page
<a href="http://www.okino.com/conv/filefmt.htm">http://www.okino.com/conv/filefmt.htm</a>	= Supported 3D file formats

### **Xtra Plug-in Availability**

The updated Xtra plug-in for Adobe Director versions 8.5 through 11 is available immediately by re-downloading the current commercial/purchased or demo Okino “Super Installer”, or by contacting Okino technical support ([support@okino.com](mailto:support@okino.com)) for the new Xtra components.

### **About Okino Computer Graphics**

With development starting January 28<sup>th</sup> 1988, Okino Computer Graphics, Inc. (Toronto, Canada) is an industry leader + pioneer in the development and deployment of 3D data re-purposing software that allows professional 3D software users to intelligently and accurately convert/view/render/modify 3D data and assets between most major CAD, DCC and VisSim software packages. Okino software is used the world over by all major Fortune 1000 companies, 20 of the top 21 defense contractors, the top 15 automotive manufacturers, and tens of thousands of production studios, 3D content creation, game development, CAD, engineering and product design companies (as broken out in the Okino customer user list at [www.okino.com/conv/users.htm](http://www.okino.com/conv/users.htm)).
